Alexander Nemo's Bio

I have been a practicing psychic for 40+ years and still don't have it right. I have an extremely eclectic background of mystical studies. Although my base philosophies are Buddhist and Taoist in nature, I have worked in Natural Magick, Shamanism, Druidism and Western Occult Studies such as Golden Dawn and Ritual magick. I have devoted most of my time to understanding the Psychic Mechanics of how energy/metaphysical things work.

I have presented classes and done readings around the country and have met fantastic people during the journey. Below is a short synopsis of classes that I offer either In-person or On-line via zoom. I also have classes that are on-demand via video. Classes can be hosted by your shop with me in person but some workshops can also be presented via a zoom link. This allows for questions and interaction.

Below are the classes that Alexander currently offer.

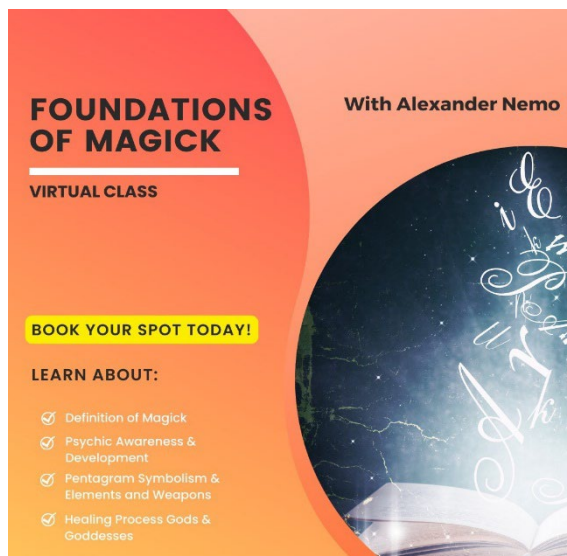

This two-hour work shop will explore the following topics and more:

- Theory of how tarot cards work
- What can a reading provide

- Understanding the energies and events around you.
- Learn how to formulate questions to obtain clear answers.
- Learn what they can and can't do.
- Learn the difference between oracle cards, I Ching, Ogham and Runes as compared to tarot.

Anyone can benefit from these fantastic tools by using simple techniques that will be discussed. No memorization required.

Even if you don't read tarot yourself at this time, you will benefit from gaining a basic understanding of this ancient tradition. In general, tarot cards help stimulate your own psychic abilities from the first day you start working with them. Learn how anyone can benefit from these fantastic tools by using simple techniques with your own cards.

This two-hour work explores the following topics:

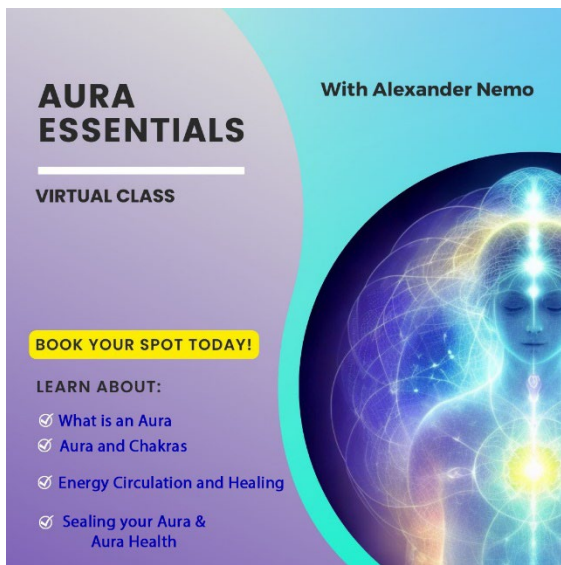

- The definitions of Magick: where we are and, where we are headed.

This workshop is 2 hours. I wrote this class because of the high demand for people wanting to know about magickal things they could easily incorporate into their everyday lives. In this class I go the extra mile and describe specific exercises that fit this bill but I also delve into why they work and how important they are to personal spiritual development.

This is a 5-part workshop, each class is 2 about hours long. There is a craft section in which each student produces the Tattwa symbol for the element covered in the class. There is also a meditation section in which all students will be guided through an experience within that elemental realm. This class is designed to set the foundation for further work with the 4 elements in all phases of magickal work. I feel that understanding the concepts, and developing skills, in regards to the 4 elemental forces can provide a great depth to your magickal studies.

Within the 5 classes topics include:

Sultania Spirit's Bio

I have been doing tarot, oracle, readings for the last several years. During my career as a spiritual advisor, I have mentored people by providing clarity and support that they need for their life path development.

The skills I acquired from earning my Bachelor's degree in Education have enabled me to teach workshops in "Spiritual Intent Activity". This inspires people to explore their own creativity.

For private readings, events, and house parties, I offer divination via coffee grounds, as part of the psychic experiences that I offer my clients. Tasseomancy, or coffee-ground reading, has been a family tradition for multiple generations.

Coffee ground readings must be done *in-person*. All other types of readings can be done by phone or Zoom.
